Flow-Mech

- Acceptance of the tender document related to the project
- Man-labor calculations for project identifying the discipline of work-force, engineers and managers
- Finalizing the requirement of workforce with the client
- Selection of the tradesmen
- Deploying them at location after briefing about the project and after completing all necessary formalities

Flow-Mech is also into tie-ups and understandings with reputed companies, having varied professional experiences for execution of the projects.

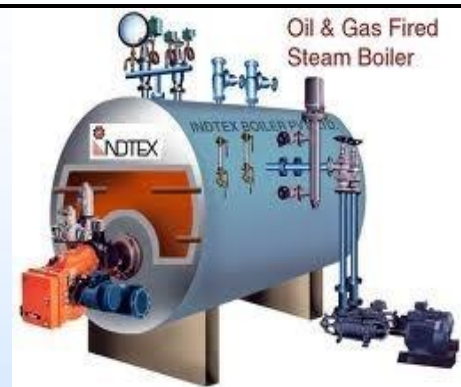

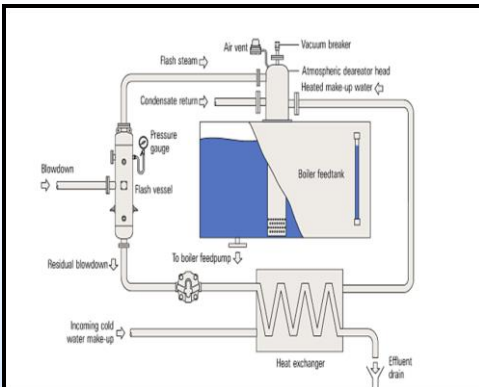

- We have set a state of art manufacturing /fabrication units equipped with Modern gadgets and equipments and backed by a dynamic and well knowledgeable manpower.
- We undertake various turnkey projects on the basis of customer requirements. We are well known for our quality and timely completion of work.. We have successfully completed various turnkey projects which include MS&SS Fabrication works.

STRUCTURAL FABRICATION

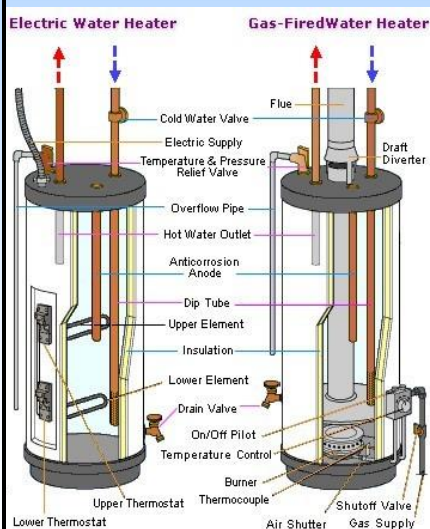

We Fabricate and Erect the Piping System For:-

- **COMPRESSED AIR**
- **HIGH & LOW PRESSURE STEAM**
- **CHILLED & HOT WATER**
- **COOLING WATER**
- **GAS & LIQUID FUEL TRANSFER**
- **VENTILATION & AIR POLLUTION CONTROL**
- **SEWAGE TRANSFER etc.**
- **Hydrant & Sprinkler firefighting systems**

We produce quality steel fabrication to a wider range of customer requirements. We are fabricators of welded storage tanks and pressure vessels in both carbon and stainless steels. We also manufacture general steel fabrication from ladders and walkways to framework, fabricated beams and bridgeworks. Each contract or project is personally managed by senior staffs with regular communication to ensure that work is delivered on time to the precise customer specifications.

Storage Tanks & Vessels for Refineries

Heating Ventilation & Airconditioning (HVAC) Piping:

We offer a wide variety of HVAC design services, including CAD in 3D

HVAC Design Services:-

- *HVAC Piping*
- *HVAC Ductwork*
- *HVAC Controls*
- *Heating & Cooling & Central Plants*

Platform Revamping:-

Services:-

- Asbuilt Survey
- Detailed design
- Process Simulation
- Commissioning Manuals
- Operating Manuals
- Preparation of Procurement/Tender Documents

Pharmaceutical Piping:-

Our piping capability in the field of Stainless Steel , Alloy Steel and Polymer piping is vast and includes UHP Gas tubing systems, Pharma-ceutical Clean Utility Tubing systems and Process Interconnection Pip-ing and Industrial Gas and vacuum Piping for industries such as Phar-maceutical, Semi-conductor, Laboratory, Aerospace and Beverage.

Erection:-

- Project Work
- Shut Down Jobs
- Painting of Structures (Onshore & Offshore)
- Civil Work
- Quality as per International Standards
- C.S, S.S, & A.S., D.SS Piping
- Quick Services
